Re: River Run Water Agreement

Summary: Previously the Town agreed to extend the agreement with River Run for the supply of water through the interconnect until the end of 2020. At this time there is no outlook on when the water system will be ready. They are asking for another extension until May 1.

Staff has not had an opportunity to work on this yet as the request came in quite late.

We would ask for some guidance on any issues, but the most pressing is the cost of water through the interconnect. Currently the rate is at \$10 per 1,000 gallons. This was agreed upon in the original contract. Our current rate for bulk water is \$16.50 per 1,000.

Financial Impact: dependent on water usage and sales

Recommendation: Discussion topic to be addressed for direction to staff.
